## NORTHSHORE COMMUNITY FOUNDATION STORIES

Ivan Gabriel Zenon, a beloved Mandeville High student athlete who was tragically lost right before his graduation in 1993, had a \$10,000 scholarship fund at the Foundation designated in his memory. The first recipient of this scholarship was Kari Ousterhout, a MHS graduate who in 2016 graduated from the University of Southern Mississippi in nursing. Working as a Neuro ICU nurse at the Neurosciences Intensive Care Unit at UAB Hospital in Birmingham, she was recently accepted into UAB's Family Nurse Practitioner School.

St. Tammany Parish is losing people to untreated mental illness at an alarming rate. Last year 41 suicides were recorded and Devin Pichon could have been one of them. He attempted to end his life when he felt he could no longer go on and in the attempt blinded himself. With no place to recover he looked to NAMI St. Tammany for a safe place to heal, live and eventually thrive. NAMI is the largest grass-roots mental health organization in the country and we are proud to support their efforts.

Miabella is a beautiful 2-year-old warrior who battles Epilepsy with multiple seizure types, an airway disorder and gait abnormalities that require her to walk with braces. She is required to go to many forms of therapy almost daily. Because of a generous gift from the Grant's Gift Foundation, she was given a high-tech stroller through the NCF which holds her upright and keeps her comfortable. It is specially equipped to lay flat during seizures, keeping her and her mom safe during the episodes.
